COL. C. L. ROSENHAM DEAD.

A weapon that comes down as still
As snow flakes fall upon the sod;
But executes a free man's will.
As lightning does the will of God;
And from its force, nor doors nor locks
Can shield you; 'tis the ballot-box.

NARROW ESCAPE.

Tuesday morning, the venerable Mr. Robert Brown, of Fourth street, had a narrow escape from death. Mr. Brown was watching the big cotton factory fire, and was standing on the trestle over Wall street, when a freight train approached unseen by him. In his effort to get out of danger, he stepped in front of a slowly moving electric cycle-car, and was knocked down and dragged some little distance, but luckily escaped with only a slight cut on the arm. Had the machine been going faster he would probably have been knocked over the trestle to his death upon the rocks below.

NOTED PEDESTRIAN HERE.

Mr. A. C. Lightfoot, the champion pedestrian of the world at any distance from one mile to 22,000 miles, who is the walking advertisement of a large soft-drink concern of Lexington, was in this city on Wednesday. Mr. Lightfoot is under contract to cover 1,200 miles per month on foot, and to do this he must average not less than forty miles per day, which is a pretty steady pace. On Yesterday he walked from Flemingsburg to this city, a distance of more than seventeen miles, in less than four hours. Mr. Lightfoot has walked in every country, having walked around the world several times.

Wednesday in Judge Rice's court, on motion of George W. Laycock, the Equitable Trust Company, of Dover, was appointed administrator of the estate of Bertha Osborne, with capital stock as surety on bond.

MINERVA HIGH SCHOOL MUSICALE.

The Juniors of the Minerva High School, gave the play "Back to Nature," in the High School auditorium on Friday and Saturday evenings of last week. The baccalaureate sermon was preached on last Sunday by President Crossfield, of the Transylvania University.

The musical program arranged by Mrs. O. C. Henry, consisted of a chorus by the High School, and a quartet composed of Mrs. William Smoot, Mrs. Mary Wallingford, O. M. Weaver and Prof. J. C. Caldwell; and a solo by Mrs. Smoot.

Under the capable direction of Miss Cook and Mrs. J. A. Caldwell, the students of the Minerva High School gave a very entertaining musical and expression recital last night. The commencement exercises will be held this evening.

NEW CONFECTIONERY BUSINESS

Messrs. Bierley and son have opened their new soda water and confectionery stand at 229 Market street, between Second and Third streets.

The store has been renovated and the inside finish is white enamel. With the rosewood fixtures topped with marble and a handsome marble soda fountain, the store presents a very inviting and pleasing appearance.

Messrs. Bierley and son have the community's best wishes for success in their new enterprise.

Dr. W. H. Long, of Lewisburg, was in this city Wednesday on business.

ADVERTISE MAYSVILLE.

The other day the little goat at the head of our columns gave us sound advice when it suggested the road to success—

Early to bed,
 Early to rise,
 Work like h—
 And advertise.

The business of running a city is like any other business. Advertising will make a city of the town and a metropolis of the city, and it is to be hoped that before long we will have the new Board of Trade, the publicity department of which will carry on a systematic campaign advertising the many advantages of Maysville.

In the meantime, think Maysville, talk Maysville, and write Maysville; if called out of town, take the best of your city with you and see that those with whom you come in contact will remember Maysville after you have returned. Stir up those former residents who are living elsewhere, and tell them of the big produce business we are doing, tell them of the bricks which Maysville furnished for some of the handsomest buildings in New Orleans, more than a thousand miles away; remind them of great hill top reservoir, furnishing a sure not surpassed anywhere; tell them about fire department; call attention to the leaf tobacco market, handling over 25,000 lbs. of tobacco in one season, in a word remind them of Maysville's many advantages which are real and only need publicity to be appreciated by the outside world.

Point out to the great farming communities which lie on every side of us how it is to their great advantage to market their crops through this city and to buy from us their supplies and implements; show them our warehouse and transportation facilities, and let them know that we offer them a service unsurpassed anywhere.

Let every letter that goes out say something of Maysville. Let us all lend a hand and Boost.

It is known that color blind people can not distinguish colors, but the reason for this is not generally known. They can not distinguish many colors, and most of them usually give the appearance of being gray. The cause lies in the constitution of the retina, which microscopically consists of rods and cones. If a certain part of the cones is wanting the sensation they arouse is also wanting. Even the normal eye has not cones fine enough to detect ultra violet rays and electric rays.

Hiram Johnson, a farmer living near Waterville, N. Y., tells a beautiful tale of how he utilizes the digging propensities of three woodchucks which he captured. He says he has trained them to dig straight postholes any depth and size required. He explains that he ties a cord to one of the animal's hind legs, indicates where the hole is to be dug, and when it is sufficiently deep he pulls the cord. The woodchuck then scrambles up for his reward of dried alfalfa.

If the entire population of the world resided in Texas there would be only an average of ten persons to the acre. The population of the world is about 1,650,000,000. If all the inhabitants of the world lived in Texas the density of the population would be about equal to the density of Ft. Worth's population, which is 5,440 a square mile. There are 265,780 square miles in Texas.

When a Siamese girl attains the age of 35 without marrying, she is placed in a privileged class under the special care of the king, who binds himself to find a husband for her. His method is extremely simple. A prisoner in any of the Siamese jails may gain his pardon and release by marrying one of the mature maidens.

MADISON COUNTY NOTES

Interesting Letter From Mrs. C. C. Degman, Ledger's Correspondent At Berea.

Berea, Ky., April 29. Editor Public Ledger:

The school week here begins on Tuesday and ends on Saturday. The reason for this is that Sunday is kept more sacred. Religious services consume the day. Monday is given to games, walks, rides and other recreations, while the evening is devoted to preparing lessons. An all-day outing is allowed each student once a year to visit any one of the many interesting spots in the county. A two or four-hour ride with driver and chaperone for these trips are provided by the college for a small fee from each student of the party. A Mason county boy who is "making good" as a student, had this "all day" last Monday and was one of sixteen happy youngsters who, behind four good horses and in a large spring wagon, drove twelve miles south to Brush Creek caves. These caves are entered by crawling through a narrow crevice in the mountain side for a few feet into a large underground room. From this room there are narrow passages leading into other rooms, from which other passages open into, as yet not thoroughly explored—mysteries of the mountain.

It is thought by some that the five trees on the campus are showing signs of decline, and the question is being discussed and science is being invoked as to whether the removal of the fallen leaves from the ground is not the reason. This is a question that may interest the Board of Trustees of Ruggles' Campground. Every effort possible is made here to preserve the trees. When a decayed spot appears in the bark, it is treated as a dentist treats a tooth; the decayed part is carefully cut away and the cavity is filled with a specially prepared cement.

A number of citizens went from here to Lexington Monday to attend the ninety-sixth anniversary of the birth of the Orders of Oddfellows. They reported a very enjoyable time.

Propos of the controversy over the Dixie-Boone Highway, the citizens here think they have an undisputed right to its location through the town or very near it, and give the following reasons: Madison county has honored the name of Boone by keeping alive the traditions of his trials and camping places. Boone's Gap, a few miles from Berea, is one of the beauty spots where students are taken and told the romantic early history of fair Kentucky. Boone street is one of the most beautiful streets in Berea. Boone Tavern has for years been noted as a favorite stopping place for travelers, while last, but not least, one of the citizens of Berea claims to have been the discoverer of Boone's Rock in its native woods, a few miles out. Its location was another one of the beauty spots where students visited a score of years ago. Richmond, Madison county's capital city, acting on the rule that "might makes right," had the rock removed to her own court house yard, of which we made mention in a former letter.

At all the churches, Sunday schools or public gatherings of any kind, since the first day of April, the 27th and 28th days have been mentioned as "Clean up days." The citizens were urged to have everything useless, from old stoves

REPUBLICANS ARE CONFIDENT

Chicago Result Called Handwriting On Wall.

Washington, May 5.—John C. Eversman, Secretary of the National Republican Congressional Committee, has returned from a trip to Columbus, Cleveland, Youngstown and Pittsburgh, where he met and conferred with Republican leaders in touch with the political situation in their bailiwicks.

"If one wanted to imbibe some old-fashioned Republican enthusiasm one should talk to those men," said Mr. Eversman.

"A year ago the prospect of a political revolution was farthest from their thoughts. Today they are militant and confident that the Democratic party will not carry a single northern state.

"They laugh at the reports sent out from New York that Woodrow Wilson will be a hard man to beat.

"They point to the Chicago municipal election as the handwriting on the wall. It is astonishing how much the Republican victory in Chicago is discussed in other cities.

"And, by the way, whenever any one asserts that local issues rather than protest against Democratic industrial depression were determining factors in that great Republican landslide, consider the wonderful showing made in the so-called industrial wards of the city where the wage-earners, many of foreign birth, live and work. They way these old-time Democratic wards rolled up Republican majorities stunned the Democratic prophets.

"Of course, everybody likes President Wilson personally, but the voters who change the results of elections—and, mind you, that only means five in each voting precinct in the country—do not separate President Wilson from Mr. Bryan. And you are going to hear a great deal about Wilson-Bryanism before the 1916 elections."

UNCLE IS ARRESTED

On Charge That He Attacked Girl Who Died of Injuries.

Olive Hill, Ky., May 3.—Bob Frazier, of Fleming county, today was arrested and charged with the murder of Stella Kinney, of Pleasant Valley, who died today as a result of an attack last night while she and Frazier were driving toward Pleasant Valley.

Frazier, who is her uncle, was bringing her from Fleming county, where she had been visiting in his home for ten months. Frazier gave the alarm last night and claimed they had been held up and robbed and the girl beaten with a club. However, officers doubted his story, and an investigation resulted in his arrest.

An autopsy showed that the girl was facing maturity.

CHAUTAUQUA DATES AND PROGRAM ARE GIVEN TO PUBLIC

Redpath Tent Will Be Pitched In This City From July 1st to July 7th

Seven Big Days—Noted Speakers and Fine Music in Great Variety of Entertainment

Maysville's fourth Redpath Chautauqua will be held July 1 to July 7, inclusive. The program just released by the local committee is well balanced and full of variety, and contains many attractive features.

In seventy-two chautauqua cities where Ferrullo's band and the Bea Greet Players appeared last summer they were generally considered the most popular attractions, consequently the Redpath Company has agreed to offer them again this season, but in an entire change of entertainment; otherwise the seven-day program will be absolutely new.

Marcus A. Kellerman, dramatic baritone, the Military Girls, the American Male Quartet and other attractive musical numbers have been booked, and the headline lecturers are such personages as Dr. Frank W. Gunsaulus and Dr. Herbert L. Willett, of Chicago; Strickland W. Gillilan, noted press and platform humorist; Harry F. Atwood, former field secretary of the Chamber of Commerce of the United States; George L. McNutt, the "dinner pail man;" Hon. John T. Barker, Attorney General of Missouri, and Chaplain O. L. Kiplinger, of the Indiana State Prison.

Evening: (Children's night) Musical program, the American Quartet, Reno, the celebrated magician,

PAINFUL DEATH IS SUFFERED BY VICTIMS OF GAS WARFARE.

London, May 5.—There has been given out a report on the use of asphyxiating gases by the Germans from Sir John French, Commander-in-chief of the expeditionary force on the continent, which reads:

"The gases employed by the Germans have been ejected from pipes laid into trenches. It has been produced also by the explosion of shells especially manufactured for this purpose.

"German troops who attacked under cover of these gases were provided with especially designed respirators, which were issued in sealed packages to all points on the line. This shows methodical preparation on a large scale.

"A week before the Germans first used this method they announced in their reports that we were making use of asphyxiating gases. At that time there appeared to be no reason for this astounding falsehood. Now it is obvious that it was part of a scheme, and it is further proof of the deliberate nature of the introduction by the Germans of this new and illegal weapon.

It shows they recognized its illegality and that they were anxious to forestall neutral and possibly domestic criticism.

"Since the enemy first made use of this method of covering his advance with a cloud of poisoned air, he has repeated it both in offensive and defensive whenever the wind has been favorable.

"The effect of this poison is not merely disabling or painlessly fatal, as has been suggested in the German press. Those victims who do not succumb on the field and who can not be brought into hospitals suffer acutely, and a large proportion of the cases die a painful and lingering death.

"Those who survive are in little better shape, as the injury to their lungs appears to be of a permanent character and reduces them to a condition which points to their being invalids for life. These effects must have been well known to German scientists who devised this new weapon and to the military authorities who sanctioned its use.

"I am of the opinion that the enemy has definitely decided to use these gases as a normal procedure and that protests will be useless."

SEES IMPROVEMENT IN MAYSVILLE.

Mr. Frank A. Mannen, formerly a resident of this city, now in the insurance business in Minneapolis, visited Maysville a short time ago, after an absence of five years, and finds much improvement here.

Mr. Harry C. Curran, our fellow townsmen, has received the following letter from Mr. Mannen:

Minneapolis, May 3, 1915.

Mr. Harry C. Curran,
Maysville, Ky.

Dear Hal: I am dropping you a line to say how much I enjoyed my little while in Maysville. This is the first time I have visited there for five years and the change for the better in the old town is certainly most marked.

It seemed to me that Maysville has improved more in the last five years than during the previous thirty-five years. Your well-lighted, paved streets, your sidewalks, the neat and attractive appearance in which the homes and business houses are maintained, the evidence of fresh paint on every side, all indicate a condition of prosperity that is most pleasing. I was much impressed with the development of your loose leaf tobacco industry. It is only right and natural that you should have this business, being in the heart of the great Burley producing section of the United States. However, only a very small part of the profits of the tobacco industry remain in Maysville, and if the manufacture of tobacco could be undertaken there it seems that it should be successful and employ a large amount of skilled labor, resulting greatly to the benefit of your town.

In my opinion the one thing that Maysville needs in order to increase its prosperity is a bridge across the Ohio river. I do not believe you people realize what an enormous commercial benefit this would be. In the first place it would double the trading territory now contiguous, would largely increase your jobbing interests, and make Maysville, with its beautiful surroundings, more accessible from the rich and fertile lands lying immediately north in the Ohio valley. Furthermore, I believe that such a bridge forming the connecting link in a chain of fine highways from the north to the south would make Maysville more or less of a resort for the tourists from the large and prosperous cities of Ohio, particularly automobile tourists. This tourist trade during the summer months is very valuable to any place. The writer was touring through New York by motor two summers ago and at Utica found a splendid hotel costing three-quarters of a million dollars. The manager advised me that their profits were largely derived from the automobile tourist trade.

On a bright and beautiful Sunday morning while in Maysville we walked down the West End of town and up Buffalo Trace to the top of Wadsworth Hill, where we had a magnificent view of the hills, the river, the old town and the wonderful valley in which it is situated. There are few places I have seen that compare in natural beauty of location, and it would be a great pleasure to all the boys who have left there to feel that the old town and its host of hospitable people should gain every possible advantage from its many desirable features.

I heard while there that there was a possibility that the old court house might be wrecked and a new one built on the site. I should deeply regret any such sacrifice. Any place can have a new court house, but few possess and none can erect a building combining the dignified simplicity and architecture with the old and hallowed associations that should endear this old land mark to every native son.

With love to you and your mother, I remain,

Faithfully,

JAPAN GIVES CHINA FORTY-EIGHT HOURS TO ANSWER.

Tokio, May 5.—At a special meeting of the cabinet yesterday it was decided, according to authoritative information, to send an ultimatum to China, giving her forty-eight hours in which to acquiesce to Japan's demands.

The Japanese consul in China have been instructed to be in readiness to quit their posts and return home.

Fright rates have increased within the past three days in anticipation of a call by the government for ships for transport purposes. Tokio remains absolutely calm, the universal opinion being that the Japanese progress through China will be in the nature of a "military procession."

It is stated here that President Yuan Shai Kai bases his refusal to yield to Japan upon his determination not to break faith with Germany, China having loaned to Tsing Tau to Germany for a

year. Japan insists that

LETTERS FROM THE PEOPLE

CHRISTMAS TREE.

The Ledger is in receipt of the following communication in connection with references by the press to the Christmas tree:

It seems that the press of our city is very much concerned about the Christmas tree that has been left standing upon the Esplanade on Market street, as was stated in today's Ledger, "since December 14."

The tree was erected on December 23, and only by the unremitting labor of six or eight men of the Maysville Gas Company was it finished in time for the lighting on Christmas eve. The city opposite Maysville enjoyed the beautiful tree and nightly gathered in groups to admire and enjoy it. We are glad to know that Maysville is ahead in at least one thing, if it is only a "Christmas tree on the first of May."

The ladies who planned and assisted by their friends, gave the tree to the city, left it there at the request of many citizens, who thought it was an ornament in its fresh green verdure, not outranked by the living statuary that is often grouped around the fountain.

We had planned to have a May-pole dance Saturday, around the tree, as Miss Hurd had offered her services and her band of trained children, but the disastrous fire of our leading enterprise has so scattered the children that it will be impossible to have it now.

On Memorial day we expected to make a flagstaff of it and drap it with the colors that have ever offered protection and succor to those who have sheltered in its folds, but alas for human hopes, for do not such ill-natured criticisms show that the brotherhood of man is only a dream, that modern civilization is only an improvement upon Fifth century barbarism, that right is only might.

Yes, cut it down, and throw it upon one of our many ornamental dumps and no longer allow it to disfigure and mar the otherwise beautiful Esplanade.

We also enjoyed the Christmas tree and shall always be ready to give our mite to further anything that will make hearts glad at the joyous Christmas time; but "a little nonsense now and then is relished by the best of men," and it was only in this spirit that the squibs were published.

AWAIT REPORTS

Elects Directors and Officers For Ensuing Year.

At a meeting of the Growers Warehouse Company, the following directors were elected for the ensuing year: L. T. Gaebke, W. W. McIlvaine, J. C. Rains, George Mitchell, D. F. Campion, George Campbell, L. C. Gaebke and Charles E. Galbreath. Mr. L. T. Gaebke was elected president, with Mr. W. W. McIlvaine as vice president, and Mr. J. C. Rains as secretary and treasurer.

The company reports a profitable business during the past season, and is contemplating several changes and improvements at the warehouse, to take care of its increasing business.

THE SICK.

Mr. Gerald Murphy, who was recently operated upon at Wilson Hospital, is improved to such an extent that he will probably be removed to his home today.

Mrs. David Hechinger will go to Cincinnati tomorrow to be with her husband, Mr. David Hechinger, who is receiving treatment at the Jewish Hospital, in that city. Mr. Hechinger continues to improve.

Miss Mabel Toile, who was operated upon for appendicitis at Wilson Hospital recently, is improving rapidly.

Mr. W. W. Baldwin, who was operated upon recently, is mending nicely, and will soon be up and about.

Mrs. James Fitzgerald, who was operated upon some time ago is rapidly improving.

There is a force of twenty men working on the Maysville Cotton Mills, putting things in shape after the fire. With air lights and ten high-power nitrogen lamps, the work continues night and day. The cotton damaged by water, has been placed in several of the tobacco warehouses and other places to dry out.

The F. H. Traxel Company has installed a beautiful large refrigerator candy case in their store. This case will prevent candy from melting in the warm summer months, and will keep the dainties in the best possible condition.

The resignation of Mrs. Brock, superintendent of the City Mission, goes into effect today. The many friends she has made while in our city will deeply regret her loss to mission work.

BUILDING AND LOAN ASSOCIATION

State Convention To Be Held In Louisville On May 27-28.

Exceptional interest has been aroused in the convention of the Kentucky League of Building and Loan Associations, to be held in Louisville, May 27-28.

A splendid program has been arranged with noted building and loan speakers from all parts of the country participating. Every phase of the subject of "Farm Loans," which will occupy a great deal of the attention of the next Congress, will be discussed at an open meeting at McCauley's Theater, on the night of May 27, and all Kentuckians interested are invited to attend.

It is the desire of those who have built up the Kentucky League to have such associations organized in every county in the state, to promote a greater interest on the part of Kentuckians and the individual ownership of homes. The building and loan companies do not compete with banks and trust companies, whose money can not be tied up on long time loans without congesting commercial requirements. The seven Louisville associations have offered to supply without cost, copies of their by-laws to any person in Kentucky who plans to organize a building and loan association.

The United States, however, probably will demand ample reparation in case the inquiry discloses that a German submarine made the attack.

When asked concerning the ease of Leon G. Thresher, an American drowned when the British steamer Falaba was sunk by a German submarine, President Wilson revealed that no representations have as yet been made to Germany, that very probably it will be treated with the other cases that had arisen, as in his opinion they all seemed a part of the war zone circumstances.
